Webinar theme

In India, the outbreak of the COVID-19 continues to have widespread impact on the society, especially on migrant labour and workers. They are considered as the most vulnerable segment of the society and faced multiple Socio-Economic hardships, as all the Factories and workplaces are closed. The counter measures taken by government like Social Distancing, Self-Isolation and travel restrictions have increased the hardships of daily-wage earners. The Irony, these marginalised people are starving and shelter less were forced to return to their native places on foot and various other means along with their children and luggage. This Webinar is a initiative to mainly focus on impact of COVID-19 on the indigenous groups and migrant labour in Socio-Economic perspective.
