Preface

This anthology aims at introducing some of the best writers who represent various periods in the history of English prose. It contains a galaxy of English essayists sharing some of the best pieces on the canvas of English Literature. Essays selected in this volume are sure to appeal to the young minds for they bring out variety of themes and unique style of the writers. It has been compiled for the in-depth study of Literature to those students who pursue literature at the undergraduate level.

Each essay has been supplemented with an introduction to the essayist, a glossary explaining difficult words, phrases, references and allusions as well as exercises in the form of long and short answer questions. The accompanying exercises have been designed with the intention of developing analytical and comprehensive writing skills among the students.

This attempt would not have been successful without the co-operation of S. Chand's publication/editorial staff.

We hope that the students of literature will find this volume useful for profound study. It will be a delight to the general readers too.
