Usually I have many problems , some important ones are listed below ;

*Washrooms are always unclean and dirty, also the infrastructure of them (like everything is hella damaged), as I'm girl and in ladies washroom which is on second floor there is total transparency they have open big see through window (anyone can easily peek inside watching girls urinating) ×Totally disappointing×

*Learning and teaching can be way modern and easy , please provide atleast one smart board classroom to BSC section and if you have then please let us use it

*Fun Activities should be conducted, programs and seminars are not only about guests speaking and getting honoured, (anyone can contact me for ideas and detailed explanation)

*There's no break - how is it possible for a student sit straight for 3\4 hours attending different classes? It get messed in our brains. Atleast 5-10 mins break after every lecture is necessary to keep mind fresh and be ready to learn in next class

I like some currieculum activity

I have no suggestions for college... Because college facilities, teaching is extremely good.

Some of the work in the college has been good but not completely good such as for example the boys do not have a door in the bathroom or the application of the door in the class room has been given since 4 months ago but so far no response has been made to that complaint.

No improvement, I think so

College bathroom clean please 🙏

The college should provide internet facility to the students.
